

22" RoomMate Digital Healthcare Internet Protocol Television (IPTV) Model# RM22II

Product Highlights

- + Internet Protocol Television (IPTV) is built-in and provides for patient and visitor video, music, and photos on demand
- + Front keypad allows staff and visitors to access the TV, DVD, and IPTV without disturbing the patient
- + Rounded corners for patient, staff, and visitor safety
- + Beautiful wide screen, perfect pixel, high definition LCD display with superior viewing angles
- + Easily accessible side inputs for gaming consoles, iPods, USB flash drives, and other devices
- + FM Radio to enhance patient relaxation
- + TV Favorites button provides ease of access to local and hospital channels
- + Battery-backed clock ensures the TV's time is always right
- + Sip and Puff controls provide many physically challenged patients the ability to change channels
- + Optional built-in hard drive allows digital content to be stored right in the television
- + TV functionality is available from the pillow speaker, keypad, IR Remote, or Nurses' Station
- + Universal pillow speaker design (both 1/4" and 6-pin amphenol inputs)
- + USB flash clone makes copying TV settings and PC storage of files easier than ever before
- + On-screen display (OSD) editor allows setup features to be made on a PC and transferred to the TV
- + Each RoomMate ships with a 3-foot right angle power cord, allows the TV to fit closer to the wall
- + Custom colors are available
- + TVs are designed, assembled and tested in the USA
- + Upgradeable software and hardware increase the hospital's return on investment
- + Compatible with HCI MediaLink, MediaCare, and Faces
- + Compatible with HCI Visitors Station

RoomMate Jack Pack

More than
just a television,
a complete solution
